

CHILD AND ADOLESCENT ENGAGEMENT STRATEGY 2025

GUIDELINES FOR CHILDREN AND ADOLESCENTS WITH HEARING DISABILITIES ON ARTIFICIAL INTELLIGENCE

- 1 AI is a tool that can help us access information and communication on equal terms
- 2 We have the right for AI to provide us with truthful information
- 3 It can facilitate accessibility for us. For example, subtitling or transcription from speech to text
- 4 We must be guaranteed the right to privacy, to feel safe, and to be able to participate on an equal footing with others
- 5 It must include us and respect us. It must give real information about deafness
- 6 We are not data, we are people
- 7 It must protect us from violence and from access to inappropriate content
- 8 It can be beneficial if used properly and without misuse
- 9 It can help us progress in terms of rights
- 10 We are not alone, our families and associations are with us

FOR INCLUSIVE AND ACCESSIBLE ARTIFICIAL INTELLIGENCE FOR ALL
